Overview of PDHRA

- It's a DoD requirement for JCS Defined deployments since 1 March 2004.

- It allows for early identification and management of symptoms that may appear in the months following a deployment.

- It applies to ALL members returning from a deployment that required a DD Form 2796, *Post Deployment Health Assessment.*

Overview of PDHRA (con't)

- Only one PDHRA is to be completed within any given 365-day period.

- Only one PDHRA needs to be completed for all deployments to date.

- See Slide 6 for Flowchart of PDHRA Process.

UDM Responsibilities

- Notify all active duty members when they are due for a PDHRA **between 90 and 180 days** after returning from a deployment that required a DD Form 2796.

*NOTE: UDMs do not have to notify ANG and Reserve personnel.

UDM Responsibilities (con't)

- Have a process in place to detect when members are **due to complete** their PDHRA and when members **have completed** their PDHRA (Recommend using Excel file linked in last slide).

- Provide the member with the following URL: (https://www.afchips.brooks.af.mil/pdhra/) to complete the web-based PDHRA, or refer PRP personnel to make an appointment with their PCM.

UDM Responsibilities (con't)

- Will receive routine updates regarding which members are due for PDHRAs from the PHSD PDHRA UM at Brooks City Base. *NOTE: This should not be the primary means by which UDMs keep track of members due for PDHRAs.

- Work with the PIMR Application Manager to ensure PIMR is updated with accurate contact information for each UDM. (POC x6380)

47 FTW PDHRA Process

- As UDMs are monitoring and tracking their redeployers (returnees), Public Health will be providing Slide 10 to the 47 MDG/CC to present at the weekly Wing Standup meeting for Group/Sq Commanders to see their Units status.

- Public Health will also be forwarding an Excel File such as that on Slide 11 with each units by NAME information to the 47 FTW IDO to disseminate to UDMs. This will assist UDMs with tracking.
